## PROJECTS

**Park Improvements**, Western Specialty Contractors

**June 2025 - July 2025**

- Visited the site to take photos, check lift access, measure building, and assess the leak.
- Analyzed lift type, tree clearance, parking options, and site activity to inform job planning.
- Reviewed bidding documents and field notes to define scope, create the estimate, and write the proposal.

**Portfolio V2**, Personal Project

**July 2025 - Present**

- Rebuilt personal portfolio using ASP.NET Core (C# and JavaScript) for cleaner architecture and scalability.
- Designed responsive, multi-page layout using routing techniques and improved maintainability and structure.
- Employed GitHub for CI/CD pipeline, achieving zero downtime and applying risk management.

**Portfolio V1**, Personal Project

**February 2025 - April 2025**

- Created the first version of my personal portfolio using HTML and CSS, focusing on visual layout and structure.
- Applied basic responsive design principles and accessibility features for multi-device compatibility.
- Used version control to manage updates, building foundation in code organization and quality control.

## SKILLS

**Design & Technical Skills:** Estimating, Microsoft Office, Marketing, C#, JavaScript, HTML, CSS

**Analysis & Control:** GitHub, Project Management, Risk Assessment, Leadership, Quality Control

## EXPERIENCE

**Western Specialty Contractors**
